

FOR IMMEDIATE RELEASE | Brussels, Belgium – March 2025

Empowering the Quadruple Helix: Workshop Series Targeted at Harmonizing Digital Health Regulation

BRUSSELS — EVOLVE2CARE has launched its [Interactive Online Workshop Series](#), bringing together researchers, policymakers, industry, and citizens. This initiative addresses the “blurry” value proposition often associated with Living Labs by utilizing the Quadruple Helix innovation framework to gather reliable feedback on digital health regulation and stakeholder needs.

The workshops focus on moving beyond theoretical innovation to practical “regulatory readiness.” By actively engaging end-users and regulators, the project seeks to harmonize Living Lab practices across Europe, ensuring that experimentation methodologies are both scientifically rigorous and policy-aligned.

The Workshop Series at a Glance

- **Workshop 1 (7 March 2025):** [Empowering Innovators to transform Transitional Care](#)
- **Workshop 2 (12 March 2025):** [Aligning innovation with healthcare stakeholder needs](#)
- **Workshop 3 (19 March 2025):** [Regulatory requirements for medical devices in Digital Health](#)

The insights gathered from these stakeholder dialogues will directly inform the project’s unified measurement standards and KPI framework.

About EVOLVE2CARE

EVOLVE2CARE is a Coordination and Support Action (CSA) dedicated to strengthening HealthTech experimentation in transitional care. The consortium brings together five leading organisations: Aristotle University of Thessaloniki (AUTH), the European Network of Living Labs (ENoLL), Sploro, Anthology Ventures, and VILABS.

Funding Statement: This project has received funding from the European Union's Horizon Europe research and innovation programme under grant agreement N° 101158152.
