Bridging the Skills Gap: New Training Programs Professionalize the European Living Lab Ecosystem

BRUSSELS — To ensure the success of real-world experimentation, EVOLVE2CARE has rolled out a [Dual-Track Capacity Building Program](#). This initiative addresses the skills gap for both “Lab Managers” and “Innovators,” ensuring that both sides of the experimentation equation are prepared for the rigors of DeepTech validation.

The Program Includes

- **The Harmonization Track:** Training Living Lab operators on standardized procedures and ICT tools derived from the VITALISE/EVOLVE2CARE framework.
- **The Investor Readiness Track:** Preparing innovators to master ethical knowledge, co-creation tools, and IPR management to reduce the risk of failure and attract venture capital.

About EVOLVE2CARE

EVOLVE2CARE is a Coordination and Support Action (CSA) dedicated to strengthening HealthTech experimentation in transitional care. The consortium brings together five leading organisations: Aristotle University of Thessaloniki (AUTH), the European Network of Living Labs (ENoLL), Sploro, Anthology Ventures, and VILABS.

Funding Statement: This project has received funding from the European Union’s Horizon Europe research and innovation programme under grant agreement N° 101158152.

Media Contact

Project Coordination: Dr. Evdokimos Konstantinidis, Project Coordinator — Laboratory of Medical Physics and Digital Innovation, Aristotle University of Thessaloniki (AUTH) — info@evolve2care.eu

Communication & Dissemination: VILABS — info@vilabs.eu
